

Winter Appeal 2011/12

Rough sleeping is rising again in Leicester. 40– 50 people are faced with nowhere to sleep tonight, these are the worst figures since records began.

With your help we can give people shelter and a chance to move on.

Cold, lonely and frightened - too many people in Leicester are feeling this today.

We all know times are tough but for some the strain of holding jobs or homes together is too great and they cannot manage.

There is a big rise in the number of people looking for shelter and they are knocking on our door for help.

At Action Homeless we have responded and from 1 November we have set up extra emergency beds and are supporting as many people as we can. We are doing this because tackling homelessness is at the heart of what we do and we don't want to turn away anyone we can help.

Just £20 can help us take in a rough sleeper

Will you give £20 to help a homeless person now? Our door at Mayfield House is open 365 days a year and we help people in and then move on. With your help we can provide an emergency bed, a hot meal, a shower and someone to talk to.
